Direct Award

"Having worked with the Darwin Group before, we knew we could rely on you to deliver beyond our expectations, but from the very outset we were surprised by the commitment of the whole team involved to produce the very best we could expect within our limited resources. From design through to delivery and after care, I cannot find a fault.

The building was delivered on the very day you promised, which just happened to be St Joseph's Day, on time, on budget and to a standard that exceeded all of our expectations."
